

**The First Board in the world**  
allowing you to fly above water

**e-foil** is the first electric foil accessible to the many. As using a foil can seem complicated or dangerous, our conception teams innovate everyday to help you enjoy our products safely.

**Modular design**  
**Extremely easy**  
**Eco friendly**

**extremely easy**

**An adaptative board**  
for all levels

Thanks to an innovative shape and a right size for most body shapes, whatever your level, you will be able to quickly enjoy your first sensations above water.

Dimension of the board :  
**6'4" x 30" : 150L**

Construction :  
EPS - Sandwich fiber glass - Epoxy + top sheet

**remote controller**

**An innovative technology**

A remote controller, developed with BB Talkin, specialized in action sport intercom. Our remote is very easy to use. It helps you feel safe and feel how easily you can use the product, from the first ride.

**Bb TALKIN'**  
Action sports intercom Bluetooth

- 💧 Waterproof & strong design
- 🎮 Cruise control function (speed fix)
- ⚡ Turbo boost button
- 🔒 Safety trigger switch

**Powerfull propulsion**

Our unique propulsion system has been designed to give riders the ability to fly above the water in complete safety.

Speed :  
From **8km/h to 34km/h**  
From **5mph to 21mph**

Propulsion :  
Engine power : **3kw**  
Boat license not needed

**Adapted autonomy**

On water, battery autonomy is approximately **90 minutes**

Our product has built-in Samsung Lithium batteries, the same system used by TESLA cars  
**Samsung 43,2v/35Ah**

**Cooling system**  
"Watair Cool"

Our teams have developed a unique innovation around the E-foil cooling system, allowing for an optimal management of the electric system temperatures.

**modular design**

**The first Modular electric foil**

Easy switch from electric mast to classic mast making it a multi-use board.

1 : Electric mast **80cm**  
2 : Non electric mast **50cm**

## Reserve

### your own pack

Beginners or experts, gliding sport lovers or summer vacationers, if you've ever dreamed of flying above water try **e-foil**.

#### Efoil pack 50

Foil 1600 + mast 50cm

*Its short mast makes the takeoff extremely easy and accessible to all. Better performance than the Efoil ACCESS 50 because the front wing is smaller and gives greater maneuverability.*

#### Efoil pack access 50

Foil 1900 + mast 50cm

*The most versatile efoil on the market. The short mast and large wing surface facilitate easy takeoff and effortless glide for all riders.*

#### Many colors

Mars Red  
Pure White  
Light Blue  
Asphalt Grey

#### These packs include:

- 1 board
- 1 foil 1900 or 1 foil 1600
- 1 e-mast
- 1 remote with a charger
- 1 battery with a charger
- 1 carrying bag
